

Environmental Sustainability Policy

Purpose and Scope:

CoreOps.AI is committed to environmental sustainability as a core value. This policy outlines our dedication to minimizing our environmental impact, promoting sustainable practices, and contributing to global environmental goals. It applies to all employees, contractors, and stakeholders associated with CoreOps.AI across all operations and facilities.

Key Commitments:

1. Carbon Footprint Reduction

- Implement energy-efficient technologies in our IT infrastructure.
- Transition to renewable energy sources where feasible.

2. Sustainable Product Design

- Incorporate eco-friendly materials and processes in our product development lifecycle.
- Conduct life cycle assessments for our technology products to minimize environmental impact.

3. Waste Management and Circular Economy

- Implement a comprehensive e-waste recycling program.
- Adopt a "reduce, reuse, recycle" approach in all facilities.

4. Green IT Practices

- Optimize IT Hardware to reduce power usage.
- Use Energy Star-rated products.
- Develop and implement energy-efficient software solutions.
- Reduce printing.

5. Sustainable Procurement

- Source materials and services from environmentally responsible suppliers.
- Integrate sustainability criteria into our RFPs and vendor selection processes.

6. Implementation Strategy

a) Measurement and Reporting

- Adopt ESG reporting frameworks.

b) Employee Engagement and Training

- Provide regular training on sustainability and foster a culture of innovation focused on developing sustainable solutions.

c) Stakeholder Alignment

- Establish a Sustainability Committee led by senior management to oversee policy implementation.
- Engage key stakeholders in developing and refining our 5-year sustainability action plan.

d) Continuous Improvement

- Regularly review and update our sustainability goals and KPIs.
- Stay informed about emerging technologies and best practices in sustainable IT.

7. Governance and Accountability

- The COO will be responsible for overseeing the implementation of this policy.
- Department heads will integrate sustainability practices into their respective areas.

8. Review Cycle

This policy will be reviewed annually to ensure its relevance and alignment with emerging environmental challenges and opportunities.

By implementing this policy, CoreOps.ai aims to lead by example in the tech industry, demonstrating that innovation and sustainability can go hand in hand to create a positive impact on our planet and society.
