

Green Procurement Policy

1. Purpose

CoreOps.AI is committed to sustainability and responsible procurement. This policy ensures that our purchasing decisions minimize environmental impact, promote ethical sourcing, and align with our corporate social responsibility (CSR) values.

2. Scope

This policy applies to all CoreOps.AI employees, contractors, and suppliers involved in procurement activities.

3. Principles

We prioritize:

- **Sustainable Materials:** Preference for recycled, biodegradable, and non-toxic materials.
- **Energy Efficiency:** Procuring energy-efficient equipment and low-carbon solutions.
- **Ethical Sourcing:** Engaging suppliers who adhere to fair labor practices and environmental regulations.
- **Waste Reduction:** Minimizing packaging waste and promoting reusable options.
- **Vendor Collaboration:** Partnering with suppliers who have strong sustainability commitments.

4. Implementation

- Consider environmental certifications (e.g., Energy Star) when selecting products.
- Evaluate suppliers based on sustainability performance.
- Continuously review and improve procurement practices for greater environmental benefits.

5. Compliance & Monitoring

Regular audits and supplier assessments will ensure adherence to this policy. Employees and suppliers must report non-compliance and suggest improvements.

6. Review

This policy will be reviewed annually to enhance sustainability effort.
